

ABSTRACT OF THE DISCLOSURE

A bag-packed three-dimensional (3D) decorative sticker set includes a packing bag defining a receiving space
5 and adapted to hang on a display rack or rail, a substrate suitable for positioning in the packing bag and having a front allowing an adhesive-applied surface to repeatedly detachably attached thereto, and a plurality of individual 3D decorative stickers together creating
10 a specific view and being preliminarily attached at an adhesive-applied backside to the front of the substrate for positioning in the packing bag along with the substrate.
